

Lean Principles for Business

SHORT COURSE

A smarter future

Our goal is to help organisations and individuals improve their performance and be the best that they can be. We do this by delivering world class training solutions at your workplace that build and develop skills and confidence.

Course Overview

Our experienced educators will guide you through a series of activities that demonstrate how lean thinking can improve processes, reduce waste and provide ongoing value to your customers and business. At the end of the course you will be more comfortable making suggestions and contributing to improvement activities. This approach not only benefits the business, but can benefit your own working life.

Who should attend?

Participants would include employees from all areas and levels of a business, to help encourage and support a culture of continuous improvement.

Course Objectives

Learn how to:

- > change the way you see the systems and processes in your business
- > improve efficiencies without capital expenditure
- > employ techniques to maintain improvements

Duration

One day workshop session, plus an additional half day coaching session for the participant group.

Benefits

Participants will be better equipped to deliver, and more aware of their role in:

- > Improved customer service - deliver exactly what the customer wants when they want it
- > Improved productivity
- > Improvements in efficiency and value add per person
- > Reductions in defects and rework
- > Innovation – staff are fully involved resulting in improved morale and participation in the business
- > Less waste in transport, moving, waiting, space, and physical waste
- > Improved lead times
