Course Overview

This program includes core skills such as workplace health and safety, workplace documentation, basic calculations and quality systems. Each program, depending on the specialisation of the organisation, also includes content specific to the type of work being performed.

Delivery and Assessment Methods

Delivery is a combination of group workshops and one-on-one sessions. Group workshops ensure the theory is well understood and then the knowledge and skills are practised in the one-on-one coaching sessions. Assessment tasks typically include on-the-job observation and questioning, in-class activities and workplace based projects.

Entry Requirements

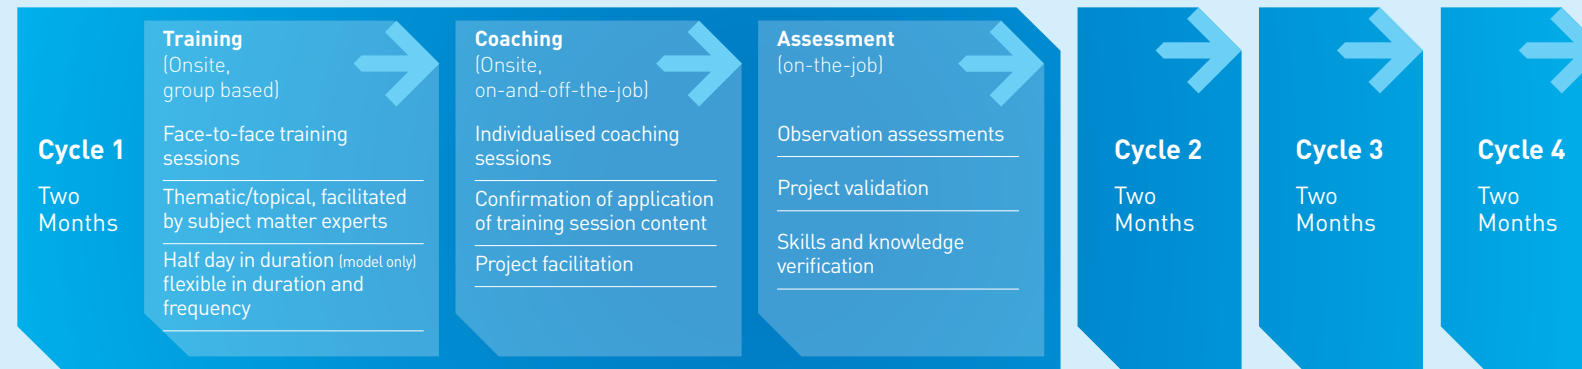

Participants' primary role/function must be to perform a variety of transport and logistics oriented tasks. Participants must have reasonable English language skills and basic literacy and numeracy skills equivalent to Year 9 of compulsory schooling, as a minimum.

Duration

This program is typically delivered over a 12 month period; however, this will vary according to client needs and will be negotiated during the consultation process.
