BSB51915 DIPLOMA OF LEADERSHIP & MANAGEMENT

Course Overview

Businesses have identified effective workplace leadership with a team based approach as being a critical factor to future success and sustainability. Managers and business owners need more than basic skills to run and operate a business. This program is designed to strengthen the performance of those managers who oversee and manage their employees. Leadership, performance management, strategic direction and workplace planning are formalised through this program.

Delivery and Assessment Methods

Delivery is a combination of group workshops and one-on-one sessions. Group workshops ensure the theory is well understood and then the knowledge and skills are practised in the one-on-one coaching sessions. Assessment tasks typically include on-the-job observation and questioning, in-class activities and workplace based projects.

Entry Requirements

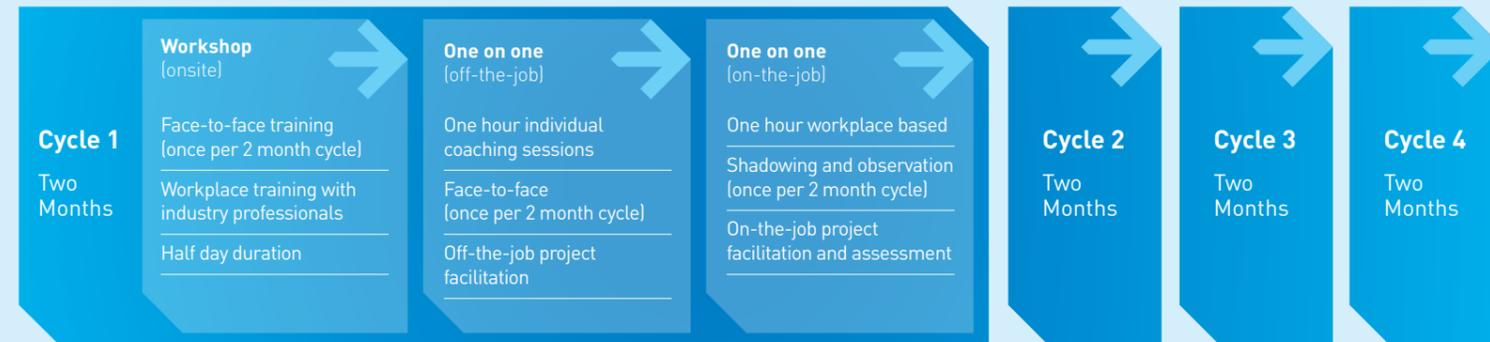

Participants' primary function/role must be to lead or supervise a team. Participants must have strong English language skills, basic computing skills, and literacy and numeracy skills equivalent to Year 10 of compulsory schooling, as a minimum.

Duration

This program is typically delivered over a 14 month period; however, this can vary according to client needs and can be negotiated during the consultation process.
